

SINOVEN INTERNATIONAL GROUP LIMITED

Sinoven oil & gas is your one stop shop for sourcing oilfield equipment from China

Operating as the oilfield equipment supply and services arm of Sinoven International Group, we manage supply chains and sourcing for oil companies, drilling contractors and oilfield supply agents worldwide.

In addition to providing you with a wide range and variety of products available through our supply chains, we also offer you the following benefits to provide a complete global sourcing solution:

- Ownership of key factories and long term cooperation with numerous other factories and supply sources to give you the best value.
- Rigorous implementation of quality assurance and quality control procedures to reassure you receive the highest quality of product.
- Inhouse bespoke design, development and manufacturing capability so we can always supply exactly what you require.

Sinoven oil & gas is your one stop shop for sourcing oilfield equipment from China

We take care of your needs for equipment and spare parts. Professionalism, experience and integrity have earned us all our current satisfied customers.

Our dedicated teams of product specialists focus on your individual needs to professionally manage the entire supply chain - from product design and development, through raw material and factory sourcing, production planning and management, quality assurance and export documentation, to shipping control.

There are several reasons for using us as your preferred source of supply:

- The first is our unique factory floor expatriate quality control, manufacturer auditing & quality assurance, unique testing

criteria and after-sales support – equipment and spare parts supplied by us are guaranteed to meet International standards and quality

- The second is delivery, we know down-time often costs you many many times more than the equipment in the oilfield operations.

- The third is our very competitive price.

Oil & gas logistics

Sinoven Oil & Gas capabilities help energy organizations to manage logistics strategy and operations across functional areas, including order management, transportation, physical distribution and supply chain security.

Using our logistics expertise, we can help you to improve customer fulfillment and capitalize on new market opportunities.

Specifically designed to support unique industry requirements, Sinoven Oil & Gas provides:

- Key-account management with a dedicated customer-service department
- Oil & Gas supply chain management
- Rig & Maritime Support
- Supply-base logistics and base-to-base support
- Specialized rig-move task force

With Sinoven Oil & Gas global network and integrated service suite, you control costs and ensure a superior customer service. We deliver a full range of services tailored to your individual business requirements, and across all geographical regions and trade lanes.

We provide all modes of conveyance and services, including

Seafreight – containers & general cargo

Airfreight – regular consolidations, secured allocations on major carriers

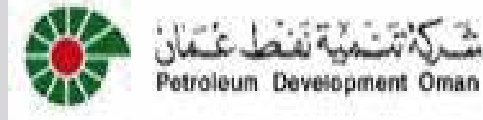

Road & Rail – focus on network services, less-than-truckload (LTL) & full-truckload (FTL)

Projects – heavy and oversized cargo, special charter operations

Warehousing – hub management, dedicated facilities

Pipe

Valves

Our Oil and Gas specialists at Sinoven Oil and Gas stock vast quantities of pipe. DSAW, ERW, SMLS Schedule pipe up to XXH or Schedule 160 are available for welding on pressure lines.. See below for other ways Sinoven can meet your needs.

ERW Pipes
Size : 1/2" -24"
SCH: SCH. 10 - SCH.40

SSAW Pipes
OD : 219 mm -3620 mm;
WT: 5mm-25 mm

ASTM A350 Trunion Mounted Ball Valves,
26 Inch (DN650), 28 Inch (DN700),
Flanged, Butt-welded, 150-2500LB.

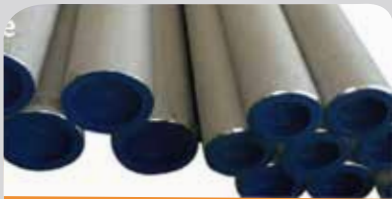

LSAW Pipes OD: 60.3 mm- 1422.4 mm
Schedule: 2.5 mm - 80 mm

Ductile Iron Pipe:
ISO2531 K9 Pipe
Length: 5.8 / 6 Meter

ASTM A216 Swing Check Valves, 4
Inch (DN100), 300LB (PN50), Flanged
RF End, Full Bore, BS 1868, 13% CR
Trim.

stainless steel
ASTM A312 TP304/304L
A312 TP316 /316L

GATE VALVE

Through Conduit Gate Valve,
150 LB, RF, 24 Inch, API 6D

TOP ENTRY BALL VALVE

API 6D full bore trunion mounted ball
valves, butt welded, with gas over oil actuator
with remote telemetry, covered with 600mm
pups X60 12.7mm wall thickness.

API 6D ASTM A216 WCB full
bore trunion mounted ball
valves, butt welded, welded
ends, covered with 600mm
pups API5L X60 12.7mm wall
thickness, stainless steel 316L
stem and seat.
